

**QUARTERLY ACTIVITY REPORT
FOR THE PERIOD TO 30 JUNE 2014**31st July 2014**HIGHLIGHTS**

- Magnum's non-renounceable entitlement offer closed raising \$114,620, Directors are working to place the shortfall from the offer.
- Magnum is continuing to work on securing a significant funding mechanism for its Botswana projects
- Magnums' next planned exploration activities are drilling on the two southern blocks of the Central CBM Project area in Botswana.
- Magnum is seeking out new business opportunities, in order to diversify the portfolio of projects and possibly bring a producing asset into the mix.
- Magnum currently cannot progress its project in NSW due to an ongoing government ban on CSG exploration and extraction in our areas. The political dynamics in New South Wales continue to evolve.

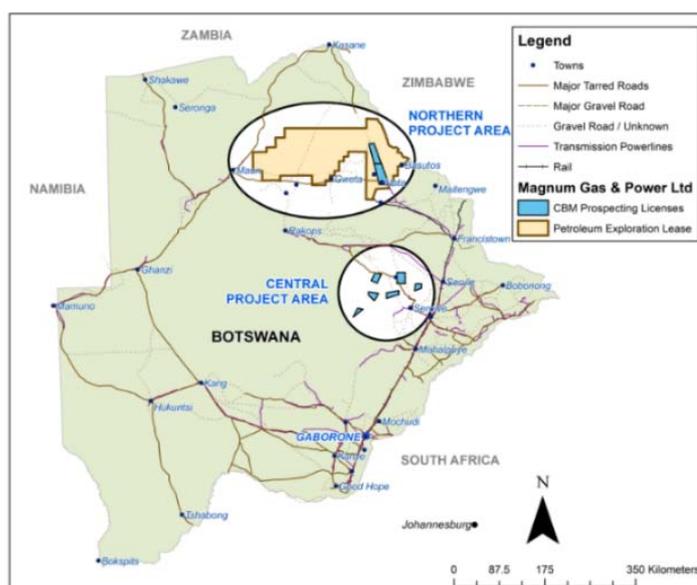

Overview

During the quarter Magnum announced a non-renounceable entitlement issue to raise \$1.3 million. The offer closed on 20th June 2014 and Magnum received applications for and allotted 11,462,011 shares totalling \$114,620. Given the nature of the capital markets the Directors were not surprised by the result. The Board is progressing various avenues for placing the shortfall of the offer.

Magnum has continued to consolidate data from the successful drilling on the Botswana CBM exploration programme carried out late last year. The results provide Magnum with significant data to support prospectivity and basin models, with results to date being very positive. The next phase of exploration drilling for 2014 has now been planned.

Magnum is progressing various potential funding arrangements, particularly for the Botswana CBM Projects. Magnum has made application to the Botswana Stock Exchange (“BSE”) to complete a secondary listing on the exchange. Magnum believes the benefits of a secondary listing on the BSE include; enabling Botswana investors to participate in what may become significant projects for the country, enables Magnum to broaden its shareholder base to include Botswana investors that understand the current energy shortage in Botswana, while also providing a more convenient portal for African and European investors to participate.

In addition to the above, Magnum is working with advisors to place the shortfall from the entitlement issue and progressing discussions with a number of parties to obtain specific funding for the Botswana CBM Projects.

The Australian CBM projects in New South Wales remain at standstill despite the fact that the Chief Scientist and Engineering report released in June 2014 concluded there is no evidence that CSG activities in the catchment should be stopped. The NSW government announced that it “will maintain its ban on CSG exploration and extraction in Sydney’s water catchment until it further considers all the recommendations in this latest report” Magnum has been given no indication how long this process will take .

Magnum continues to evaluate other opportunities and strategic relationships to further enhance its portfolio of projects.

Botswana

Coal Bed Methane Projects

The Magnum CBM exploration portfolio consists of multiple Coal Bed Methane Prospecting Licences focused on two separate project areas, Central and Northern CBM project areas, within the overall central Kalahari Karoo basin of Botswana, Africa.

During the quarter Magnum continued the review and integration of data from its exploration programme on the Central CBM project area.

Major CBM exploration programmes are underway in the basin by significant peers, including Kubu Energy (Sasol and Origin Energy), Exxaro and Tlou Energy. Existing power generation facilities in Botswana's critical power market are currently awaiting CBM gas supply.

Magnum's CBM acreage is located in the Central region of Botswana and is held 100% by Magnum's wholly owned Botswana subsidiary, Nata Energy (Pty) Ltd. The Central CBM project consists of six blocks totalling 1,205 km² of prospecting licences (PL352/2008 and PL353/2008) over prospective CBM acreage across the "Mmashoro" basin in the Mmashoro Region. Magnum has submitted renewals on its prospecting licences in accordance with the requirements of the Botswana Ministry of Minerals, Energy and Water Affairs.

Petroleum Projects

In October 2012 Magnum's wholly owned Botswana subsidiary Baobab Resources (Pty) Ltd was awarded Petroleum Exploration Licence ("PEL") No. 154/2012 by the Department of Geological Surveys in the Republic of Botswana. The PEL 154/2012 covers approximately 23,700 km² and is located in the Ngamiland and Central districts of Botswana.

New South Wales

In June 2014, the Minister for Resources and Energy Anthony Roberts received a report from the independent NSW Chief Scientist and Engineer examining the cumulative Impacts on ground and surface water in the Sydney Water Catchment, analysed the impacts of activities in the Sydney Water Catchment. The report concluded that there no evidence that current long-wall or CSG activities in the Catchment should be stopped, that modern treatment processes are sufficient in protecting the quality of Sydney's drinking water against any adverse impact. Despite these findings, the NSW Govt announced it will maintain its ban on CSG exploration and extraction in Sydney's water catchment until it fully considers all the recommendations in this latest report and will closely monitor any impacts on the environment.

Magnum is hopeful that the New South Wales Government will eventually address the looming gas supply shortage that it confirmed and announced in November 2013. Until then, all operations in NSW are on hold.

About Magnum Gas & Power Ltd

Magnum Gas & Power Ltd (ASX:MPE) is an ASX listed energy exploration and development company with an exploration portfolio including Coal Bed Methane and Petroleum exploration in Botswana, Africa and Coal Seam Gas exploration in New South Wales, Australia. The Company's Board of Directors and management team has extensive experience in the exploration, development and capital markets for energy and resources projects.

Appendix 5B
Mining exploration entity quarterly report

| | | | |
|------|--|-------|---------|
| 1.13 | Total operating and investing cash flows (brought forward) | (337) | (2,392) |
| | Cash flows related to financing activities | | |
| 1.14 | Proceeds from issues of shares, options, etc. | 115 | 431 |
| 1.15 | Proceeds from sale of forfeited shares | - | - |
| 1.16 | Proceeds from borrowings | - | - |
| 1.17 | Repayment of borrowings | - | - |
| 1.18 | Dividends paid | - | - |
| 1.19 | Other (Share issue costs) | (9) | (31) |
| | Net financing cash flows | 106 | 400 |
| | Net increase (decrease) in cash held | (231) | (1,992) |
| 1.20 | Cash at beginning of quarter/year to date | 466 | 2,227 |
| 1.21 | Exchange rate adjustments to item 1.20 | - | - |
| 1.22 | Cash at end of quarter | 235 | 235 |

Payments to directors of the entity and associates of the directors

Payments to related entities of the entity and associates of the related entities

| | | Current quarter \$A'000 |
|------|--|----------------------------|
| 1.23 | Aggregate amount of payments to the parties included in item 1.2 | 95 |
| 1.24 | Aggregate amount of loans to the parties included in item 1.10 | - |

1.25 Explanation necessary for an understanding of the transactions

Payments to directors and their related parties.

Non-cash financing and investing activities

2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

NIL

2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

NIL

Financing facilities available

Add notes as necessary for an understanding of the position.

| | | Amount available \$A'000 | Amount used \$A'000 |
|-----|-----------------------------|-----------------------------|------------------------|
| 3.1 | Loan facilities | - | - |
| 3.2 | Credit standby arrangements | - | - |

+ See chapter 19 for defined terms.

Estimated cash outflows for next quarter

| | | \$A'000 |
|--------------|----------------------------|----------------|
| 4.1 | Exploration and evaluation | 50 |
| 4.2 | Development | - |
| 4.3 | Production | - |
| 4.4 | Administration | 150 |
| Total | | **200 |

** The Company completed an entitlement issue during the quarter and is working to place the shortfall, the finalisation of this activity and certainty of funding will impact on the planned activities for the coming quarter.

Reconciliation of cash

| Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows. | | | Current quarter \$A'000 | Previous quarter \$A'000 |
|---|--------------------------|--|------------------------------------|-------------------------------------|
| 5.1 | Cash on hand and at bank | | 235 | 466 |
| 5.2 | Deposits at call | | - | - |
| 5.3 | Bank overdraft | | | |
| 5.4 | Other (provide details) | | | |
| Total: cash at end of quarter (item 1.22) | | | 235 | 466 |

Changes in interests in mining tenements

| | Tenement reference | Nature of interest (note (2)) | Interest at beginning of quarter | Interest at end of quarter |
|-----|---|--|---|---|
| 6.1 | Interests in mining tenements relinquished, reduced or lapsed | N/A | | |
| 6.2 | Interests in mining tenements acquired or increased | N/A | | |

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
