

QUARTERLY ACTIVITY REPORT FOR THE PERIOD TO 31 DECEMBER 2015

29th January 2016

HIGHLIGHTS

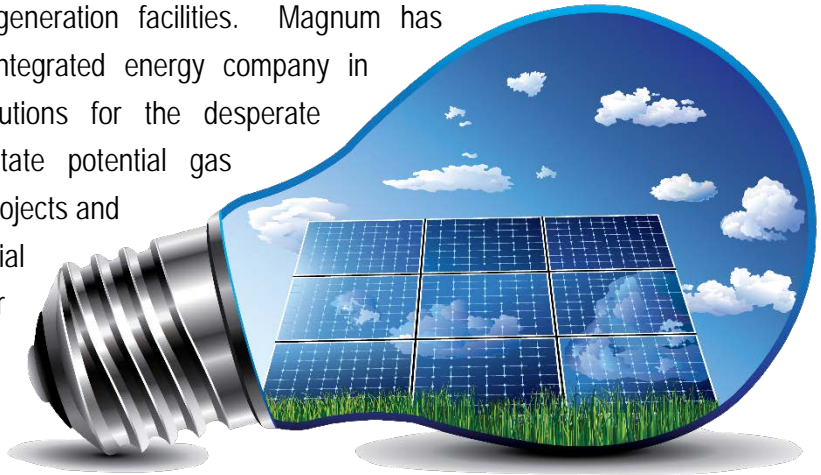

- Magnum has expanded its focus and expertise, and is currently planning to provide Solar and Gas Power Generation projects in Botswana's to help resolve the regions desperate power deficiency.
- Magnum is currently pursuing potential opportunities to supply energy to a number of small, medium and large Private, Industrial and Government energy users, both domestic in Botswana and export to the surrounding region.
- During the year Magnum made submissions to the Government of Botswana regarding;
 - building two 50MW Solar Power stations
 - supplying CBM gas to the existing 90MW Orapa Power stationand included the support of significant key international and regional partners.
- Magnum has been progressing discussions with various potential partners, working to secure experienced regional & international capability to develop a complete and robust energy supply chain solution for both domestic and export markets.
- Integrated/Hybrid Solar and Gas power generation provides a clean and practical solution, while also helping to develop the required offtakes for Magnums gas field projects.
- Subsequent to the end of the quarter, Magnum has entered into a short term unsecured loan agreement. The loan facility, amounting to \$150,000, has been made available for working capital purposes. The loan may be converted in whole or part on or before the repayment date (12 January 2018) at the Company's option into Shares.
- Magnum is listed on both the ASX (Australian Stock Exchange) and the BSE (Botswana Stock Exchange) to enable both local Botswana participation and international investment.

Botswana

Botswana, and the Southern Africa Region in general, has significant power supply issues. Magnum is focused on bringing cleaner energy to the people of Botswana, who wish to have domestic gas and power generation for the ongoing development of their country and people. Magnum is also working to progress larger power generation projects for export markets. While Gas is a cleaner and flexible energy source (particularly than coal, diesel and wood which are the primary sources of energy in Botswana), Magnum is also working to integrate Solar power generation projects to provide an even cleaner, practical and cost effective solution for industry and communities in the region.

Solar and Gas - Power Generation Projects

Magnum has been progressing partnering discussions and investigating opportunities for integrated hybrid Solar/Gas fired power generation facilities. Magnum has established a more vertically integrated energy company in Botswana, to help create solutions for the desperate Botswana power market, facilitate potential gas offtakes for the gas exploration projects and provide other paths to potential review streams and value for Magnum shareholders. As such, Magnum has been focussed on partnering and facilitating possible Solar power projects, particularly where benefits exist for Hybrid Solar & Gas power generation facilities.

Magnum is also investigating various Compressed Natural Gas ("CNG") and micro-LNG (Liquefied Natural Gas) solutions to create a virtual pipeline using road transport to initial offtake facilities and potentially creating a flexible distribution network for Botswana.

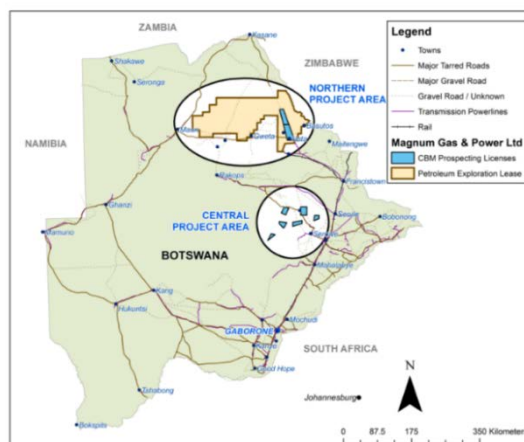

Coal Bed Methane Projects

The Magnum CBM exploration portfolio consists of multiple Coal Bed Methane Prospecting Licences focused on two separate project areas, Central and Northern CBM project areas, within the overall central Kalahari Karoo basin of Botswana, Africa.

Magnum's CBM acreage is located in the Central region of Botswana and is held 100% by Magnum's wholly owned Botswana subsidiary, Nata Energy (Pty) Ltd. The Central CBM project consists of six blocks totalling 1,205 km² of prospecting licences (PL352/2008 and PL353/2008) over prospective CBM acreage across the "Mmashoro" basin in the Mmashoro Region.

The Northern CBM Project consists of 1,132 km² of prospecting licences (PL 644/2009 and PL645/2009) over prospective CBM acreage across the “Ngwasha” basin in the Nata Region.

The CBM exploration programmes underway in the basin are providing positive results. Existing power generation facilities in Botswana’s critical power market are currently awaiting CBM gas supply and Magnum has recently submitted an Expression of Interest Tender to the Botswana Government, at their request, for supply of CBM gas to the existing 90MW power generation facility.

Petroleum Projects

Magnum’s wholly owned Botswana subsidiary Baobab Resources (Pty) Ltd holds Petroleum Exploration Licence (“PEL”) No. 154/2012 issued by the Department of Geological Surveys in the Republic of Botswana in October 2012. The PEL 154/2012 covers approximately 23,700 km² and is located in the Ngamiland and Central districts of Botswana.

About Magnum Gas & Power Ltd

ASX: MPE BSE: MAGNUM

Magnum Gas & Power Ltd is a listed energy, exploration and development company.

Energy for Growth

Power for a Cleaner Future

Magnum is working to develop Solar and Gas Power Generation infrastructure, along with upstream Gas exploration and production projects in Botswana, Africa. The Company’s Board of Directors and management team has extensive experience in exploration and development of energy, resources and infrastructure projects.

Forward Looking statements

This document may contain forward looking statements. Forward looking statements include, but are not limited to, statements concerning Magnum Gas & Power Ltd’s planned programmes. Although the Company believes that such statements are reasonable, the Company’s exploration activities inherently include a degree of risk and as such there is a risk that actual results achieved may be different from the forward looking statements made.

Quarter ended ("current quarter")

31 December 2015

Consolidated statement of cash flows

	Current quarter \$A'000	Year to date (6 months) \$A'000
Cash flows related to operating activities		
1.1 Receipts from product sales and related debtors	-	-
1.2 Payments for (a) exploration & evaluation	(18)	(40)
(b) development	-	-
(c) production	-	-
(d) administration	(138)	(241)
1.3 Dividends received	-	-
1.4 Interest and other items of a similar nature received	-	-
1.5 Interest and other costs of finance paid	-	-
1.6 Income taxes paid	-	-
1.7 Other	-	-
Net Operating Cash Flows	(156)	(281)
Cash flows related to investing activities		
1.8 Payment for purchases of:		
(a) prospects	-	-
(b) equity investments	-	-
(c) other fixed assets	-	-
1.9 Proceeds from sale of:		
(a) prospects	-	-
(b) equity investments	-	-
(c) other fixed assets	-	-
1.10 Loans to other entities	-	-
1.11 Loans repaid by other entities	-	-
1.12 Other	-	-
Net investing cash flows	-	-
1.13 Total operating and investing cash flows (carried forward)	(156)	(281)

+ See chapter 19 for defined terms.

Appendix 5B
Mining exploration entity quarterly report

1.13	Total operating and investing cash flows (brought forward)	(156)	(281)
	Cash flows related to financing activities		
1.14	Proceeds from issues of shares, options, etc.	160	160
1.15	Proceeds from sale of forfeited shares	-	-
1.16	Proceeds from borrowings	-	-
1.17	Repayment of borrowings	-	-
1.18	Dividends paid	-	-
1.19	Other (Share issue costs)	(5)	(5)
	Net financing cash flows	155	155
	Net increase (decrease) in cash held	(1)	(126)
1.20	Cash at beginning of quarter/year to date	10	135
1.21	Exchange rate adjustments to item 1.20	-	-
1.22	Cash at end of quarter	9	9

Payments to directors of the entity and associates of the directors

Payments to related entities of the entity and associates of the related entities

		Current quarter \$A'000
1.23	Aggregate amount of payments to the parties included in item 1.2	85
1.24	Aggregate amount of loans to the parties included in item 1.10	-

1.25 Explanation necessary for an understanding of the transactions

Payments to directors and their related parties.

Non-cash financing and investing activities

2.1 Details of financing and investing transactions which have had a material effect on consolidated assets and liabilities but did not involve cash flows

NIL

2.2 Details of outlays made by other entities to establish or increase their share in projects in which the reporting entity has an interest

NIL

Financing facilities available

Add notes as necessary for an understanding of the position.

		Amount available \$A'000	Amount used \$A'000
3.1	Loan facilities	300	300
3.2	Credit standby arrangements	-	-

+ See chapter 19 for defined terms.

Estimated cash outflows for next quarter

		\$A'000
4.1	Exploration and evaluation	50
4.2	Development	-
4.3	Production	-
4.4	Administration	100
Total		150

Note: Subsequent to the end of the Quarter the Company secured interim funding of \$150,000. Estimated cash out flows are dependent on the ability of the Company to continue to fund them. The Company is evaluating a number of alternatives for funding its ongoing working capital and planned exploration program.

Reconciliation of cash

Reconciliation of cash at the end of the quarter (as shown in the consolidated statement of cash flows) to the related items in the accounts is as follows.	Current quarter \$A'000	Previous quarter \$A'000
5.1 Cash on hand and at bank	9	10
5.2 Deposits at call	-	-
5.3 Bank overdraft		
5.4 Other (provide details)		
Total: cash at end of quarter (item 1.22)	9	10

Changes in interests in mining tenements

	Tenement reference	Nature of interest (note (2))	Interest at beginning of quarter	Interest at end of quarter
6.1	Interests in mining tenements relinquished, reduced or lapsed	N/A		
6.2	Interests in mining tenements acquired or increased	N/A		

+ See chapter 19 for defined terms.

Appendix 5B
Mining exploration entity quarterly report

Issued and quoted securities at end of current quarter

Description includes rate of interest and any redemption or conversion rights together with prices and dates.

	Total number	Number quoted	Issue price per security (see note 3) (cents)	Amount paid up per security (see note 3) (cents)
7.1 Preference +securities <i>(description)</i>	-	-	-	-
7.2 Changes during quarter (a) Increases through issues (b) Decreases through returns of capital, buy-backs, redemptions	-	-	-	-
7.3 +Ordinary securities	882,375,705	882,375,705	-	-
7.4 Changes during quarter (a) Increases through issues (b) Decreases through returns of capital, buy-backs	32,000,000	32,000,000	0.5 cent per share	0.5 cent per share
7.5 +Convertible debt securities <i>(description)</i>	-	-	-	-
7.6 Changes during quarter (a) Increases through issues (b) Decreases through securities matured, converted	-	-	-	-
7.7 Options <i>(description and conversion factor)</i>	<i>Unlisted options</i>		<i>Exercise Price</i>	<i>Expiry Date</i>
	-	-	-	-
	-	-	-	-
7.8 Issued during quarter	-	-	-	-
7.9 Exercised during quarter	-	-	-	-
7.10 Expired during quarter	-	-	-	-
7.11 Cancelled during quarter	-	-	-	-
7.12 Debentures <i>(totals only)</i>	-	-		
7.13 Unsecured notes <i>(totals only)</i>	-	-		

+ See chapter 19 for defined terms.

Compliance statement

- 1 This statement has been prepared under accounting policies which comply with accounting standards as defined in the Corporations Act or other standards acceptable to ASX (see note 5).
- 2 This statement does give a true and fair view of the matters disclosed.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
